## FIGHT IS ON IN SOCIALIST PARTY

Radicals and Conservatives Aligned Against Each Other Over Union - ist Fight

### SCORE LAWRENCE ARRESTS

Detention of Ettor and His Partner Decried as Inhuman Attack on Liberty by Woolen Trust

TOMLINSON HALL, INDIANAPOLIS, May 16.—Bitter denunciations of the allegation that the direct actionists in the labor movement have been responsible for the violence that has marked many strikes and labor troubles was made to the socialist national convention here this afternoon by Delegates Hickey of Texas, Lewis of Oregon, and Clifford of Ohio. They took open exception to part of the report of the committee on labor relations, which declared that the party had no right to interfere in controversies within the labor movement.

The denunciation, which was one of the most remarkable documents ever presented to a socialist national convention, precipitated a lengthy argument that bristled with personalities and lined up the conservative and radical elements of the convention in adamant opposing lines.

Another demand that the national socialist party go on record as favoring the impeachment of Federal Judge Hanford of Washington, and that Congressman Victor Berger present charges against the judge to the national house of representatives, on which impeachment proceedings can be predicated, electrified the national convention today. They came from the Tacoma, Wash., branch of the organization and were referred to committee for consideration. It was stated that the convention will adopt strong resolutions against the court before adjournment.

A fight was precipitated over the amendment of the platform. That document contained a mild approval of industrial unionism, but the radicals headed by Haywood, had framed an amendment which specifically endorsed industrial unionism and were prepared to demand its substitution.

In retaliation for this activity, the conservative faction was centering its strength on an amendment to the socialist constitution which would curb the national strength of the I. W. W. It prohibited any socialist accepting any nomination for political office on the recommendation of any political party or organization other than the socialist party. The I. W. W. constitution prohibits any member accepting any nomination or office unless he first specifically secures the endorsement of his own organization.

**Recommend Propaganda**  
The resolutions committee today recommended party propaganda work in the United States army, the national guard and the police and fire departments of the country. They also recommended that \$500 be contributed to aid the defense of Ettor and Giovannitti, in jail at Lawrence, charged with murder in connection with the strike.

**Split on Unionism**  
The labor committee at today's session openly split over the question of endorsing the so-called Los Angeles plan of combined political action between the American Federation of Labor locals and the party organization "for reasons of political expediency," and a majority and minority report.

It was accepted on all sides that the vote on the minority and majority reports would record the feelings of the delegates on whether craft or industrial unionism was to have the future support of the socialist party in the United States.

The imprisonment of Joseph J. Ettor and Arturo Giovannitti, the Lawrence strike leaders, was denounced as an "outrageous and inhuman attempt on the part of the Woolen trust to destroy the right of free speech and the right of strike in retaliation for the cutting of its income \$15,000,000 annually, by the socialist national convention this afternoon in appropriating \$500 to finance their defense.

### SOLDIER THOUGHT DROWNED

INDIANAPOLIS, Ind., May 16.—Policemen today dragged the local canal near the plant of the American Brewery company in an effort to recover the body of a man who is believed to have been a United States soldier attached to Company D of the 25th infantry, stationed at Fort Benjamin Harrison here. A soldier's cap recovered by the police is the only clue. Frederick Albrecht, a brewery employee, heard a cry last night, saw the man struggling and ran for aid. When he returned the water was quiet.

### YEGGS ROB POSTOFFICE

NEWBURG, Ind., May 16.—The sheriff and deputies of Warrick county today are searching the surrounding country for burglars who last night dynamited the safe in the postoffice, escaping with \$285 in stamps, \$20 in cash and a personal note of the postmaster for \$1,000. A horse and buggy was stolen by the robbers to make their escape.

## EULOGIZES DEAD DANISH MONARCH

American Minister to Copenhagen Says He Was Ideal Constitutional King

### HE WAS FOND OF AMERICANS

Frederick VIII. Was Interested in All Citizens of United States Who Visited Country

WASHINGTON, May 16.—"A beloved monarch, an ideal constitutional sovereign, a ruler who respected every right of his people, and who was probably the most approachable of all the kings of modern times." This was the eulogy paid to the late King Frederick today by Dr. Maurice Francis Egan, American minister to Copenhagen, now on leave in this country.

"When King Frederick ascended the throne in 1906, he faced a serious problem," said Dr. Egan. "He had been crown prince for a long time and this position was a most difficult one for an active man. It is a position of self-effacement and obedience. The Danes always adored his father and at first refused to see any virtue in the son, but gradually the sympathetic and genial qualities of Frederick gained their affection."

**Ideal Monarch**  
"He was an ideal constitutional monarch; one who respected scrupulously all the rights of his people. No king could have been more approachable—and again, none more careful to preserve his dignity. In ordinary life his manners were entirely simple and unostentatious."

"Every man with a petition, whether he was a bureaucrat or a woodman shod peasant—felt at liberty to present himself before the king on Monday—on which day the king received the people. There was no wrong to be righted which the king did not courageously undertake."

"The king walked about the streets of the city alone; gazing into shop windows and making small purchases for his nieces and nephews."

### Liked Americans

"He was particularly interested in Americans—not only Americans whose careers in this country he followed with interest and with wonderful memory—but also any Americans who visited Copenhagen. He was a close friend of Jacob Riis, himself a Dane. The last book I discussed with him was an American essay on constitutional law, and in this conversation he displayed a tremendous knowledge of American conditions. But it was when the American fleet came to Copenhagen last summer that he showed his great admiration for our country. When the fleet was at the city he was immensely flattered when several sailors on our vessels wrote him letters of thanks for the treatment he accorded them. He answered all these and expressed a wish to send everyone a medal. But Admiral Badger refused to allow it."

"The crown prince who succeeds him is a fine, up-standing young man, very tall and well developed, an excellent tennis player and horseman, and one of the most popular members of the royal family."

Dr. Egan was greatly grieved to learn of the king's death and has cancelled all his social engagements here.

### U. S. SUBMARINE AGROUND

ATLANTIC CITY, N. J., May 16.—United States submarine boat C2 is ashore four miles off Great Egg Harbor inlet. She is in fourteen feet of water, lying easy and has refused offers of assistance. The commander believes he will be able to get her off at the next high tide and refuses to give any particulars.

### T. R. BACKS LINDSAY

COLONEL MIXES INTO DENVER MUNICIPAL FIGHT WITH ENDORSEMENT OF JUVENILE JUDGE

DENVER, Col., May 16.—The name of Colonel Roosevelt was injected into the local municipal campaign today following the reading by Judge Ben Lindsey of the juvenile court of a telegram from the colonel, endorsing Lindsey and inferentially endorsing the complete "citizens' party" ticket. Medill McCormick, Roosevelt's campaign manager, also endorsed Lindsey and the citizens' ticket.

In his telegram to Lindsey Roosevelt said in part: "You represent not only the cause of fair treatment of the children, who are so soon to be the men and women and, therefore, the masters of this republic, but you represent the cause of clean and decent politics and the very fact that the evil machines of both parties are against you, ought to make all good citizens of every party join in your support."

The present campaign is the bitterest in the history of Denver. The election will be held next Tuesday.

## PUBLIC WILL BE WELL CARED FOR

La Crosse Business Men's Protective Association Is Organized at Meeting Yesterday

### WORK FOR PUBLIC WELFARE

Liquor Dealers, Brewers, Cigar Merchants, Hotel, Restaurant and Theater Men Enrolled

The hottest public welfare fight in the history of La Crosse is peeping above the horizon if the organization of the saloonkeepers, retail liquor dealers, brewers, cigar merchants, hotel keepers, restaurant keepers and theater men which took place late yesterday is any indication.

Over 150 men signed as members of the organization which had its inception in the recent activities of the Public Welfare league. The chief purpose of the organization is to oppose any means that may be taken by that organization to close saloons on Sundays and at 11 o'clock on week nights.

Both organizations claim that they are working for the welfare of the general public but as the crusaders were first to annex the name of "Public Welfare league," it was up to the new organization to either accept the prefix "Anti" or select an entirely new title. They took the latter course and will be known as the La Crosse Business Men's Protective Association.

Another meeting will be called within a few days to further the organization and draw up plans for opposing the movements of the public welfare league.

The officers elected are: President—John A. Elliott. Secretary—John Williams. Executive committee—John A. Elliott, Emil T. Mueller and Carl Kutenacker.

## TAFT SAYS T. R. CANNOT WIN OUT

President Asserts if Roosevelt Gets All 188 Delegates Yet to Be Chosen, He Will Lose

CLEVELAND, O., May 16.—Replying to Col. Roosevelt's claim of 522 delegates already selected to the Chicago convention, President Taft here today gave out the following statement:

"Only 188 delegates to the Chicago convention remain to be chosen. If Mr. Roosevelt were to get all of them, yet he could not be nominated. Carefully prepared figures show that only 399 delegates thus far are instructed for or pledged to him, and the talk of real and genuine contests against delegates who are instructed for me is as unsustained by the facts as many of the misleading issues which have been injected into this campaign."

"The number of Taft delegates thus far chosen, not counting the eight from Montana, and a number from Texas and Arkansas, which will be elected today is 520 and the vote in Ohio, my home state, much to my gratification will be the decisive one and will settle the question of the nomination."

"The Chicago convention will be organized by the friends of constitutional government and the success of that great cause now seems assured."

### LIMA, O., May 16.—Col. Roosevelt here today denied that Dan R. Hanna of Cleveland, is paying the expenses for his Ohio tour. He said that report was unfounded, declaring that the Roosevelt national committee is paying his expenses as it did also for his tours through Massachusetts, Pennsylvania and Illinois, and other campaign trips.

On the present trip, W. P. Schaeffle, traffic manager for M. A. Hanna and company, is in charge of the special train. Dan Hanna is a son of the late senator and owns two Cleveland newspapers.

### MILLINERS TESTIFY IN CIRCUIT COURT

Miss Clara B. Hilton today brought suit against the Komiss-Robertson company for breach of contract before Judge E. C. Higbee in circuit court. Miss Hilton was employed as a milliner but was discharged last fall. She is suing to recover for the complete time of her contract.

Several other milliners testified that her work was among the best in the city and that the Komiss-Robertson company had used her work for display during the 1911 fair. No decision had been reached at press time.

The case of Hjalmar Pederson vs. Peter Hollem, a suit for a judgment of \$20,000 for the alienation of Mrs. Pederson's affections was continued.

## KELLOGG QUILTS RACE FOR SEAT

National Republican Committeeman Withdraws from Fight for Re-election

### MINNESOTA CONVENTION ON

Roosevelt in Control of the Gopher State Assembly of the G. O. P.

MINNEAPOLIS, May 16.—L. A. Caswell was chosen national committeeman without opposition. The La Follette men scored a point early in the convention by putting through a motion that all resolutions be threshed out on the floor of the convention.

MINNEAPOLIS, Minn., May 16.—Minnesota republicans today are enjoying the spectacle of a boss presiding over the first state convention which he does not dominate. Senator E. E. Smith, machine manager and manipulator led the fight in this state for Taft and as chairman of the state central committee was forced to occupy the chair today while a unanimous Roosevelt convention named the six delegates at large to support the colonel at the Chicago convention. This part of the day's work was purely perfunctory. With the 18 district delegates already named, Minnesota will send a solid delegation of 24 for Roosevelt.

The main fight of the day was scheduled to come off the national committeeman for Minnesota. F. B. Kellogg of St. Paul is the present incumbent and is viewed in a somewhat ambiguous light as he played an important part in the government litigation against Standard Oil, but is also legal counsel in this state for the United States Steel corporation. Possibilities for Kellogg's place are I. A. Caswell of St. Paul, who managed the Roosevelt interests prior to the convention and A. A. D. Rahn of Minneapolis. La Follette supporters devoted their activities in the convention to an attempt to commit the state platform to initiative, referendum and recall and to securing a favorable mention of La Follette. The outcome of their attempt will not be known till late in the day as the convention did not start until noon.

Shortly before the call to order, F. B. Kellogg simplified the situation by withdrawing as candidate for national committeeman, leaving the field practically clear for Caswell. It is regarded as certain that Senator Moses E. Clapp and M. D. Purdy, the latter assistant to the attorney general under Roosevelt, will be among the six delegates at large. Among the resolutions was one demanding a state-wide preferential primary on governor and president, introduced by J. F. Jacobson of Lac Qui Parle and republican candidate for governor in 1908.

### KNOX ASSAILS T. R.

CLEVELAND, O., May 16.—"The new nationalism of Mr. Roosevelt represents as violent an assault upon the autonomy of the states as the new nationalism of 1861 was upon the integrity of the union," asserted Secretary of State Knox, in an administration speech here. "Who dares prophesy that the people—the patient, undemonstrative people whose full voice is never heard except in great crisis—will not, when they are aroused to the danger of the substantial loss of independent statehood as they great a cost, defend the states as they did the union?"

### CLARK CONTROLS IOWA

BELIEVED HE WILL GET TWENTY DELEGATES TO WILSON'S SIX FROM BURLINGTON CONVENTION

### BURLINGTON, Ia., May 16.—

Indications early today were that Speaker Champ Clark will have twenty of the delegates to the Baltimore convention from Iowa and Wilson six. However, the Clark men assert they will pass resolutions. At the state convention this afternoon instructing all 26 delegates to vote for the speaker but with 600 delegates uninstructed no one can tell until the roll call whether they can make the boast good or not. Followers of Woodrow Wilson are working against instructions and had started a counterboom for W. J. Bryan, which was stopped by telegraphic orders from the Nebraska.

### SELECT DARROW JURY

LOS ANGELES, Cal., May 16.—The selection of jurors to try Clarence S. Darrow on charge of bribery proceeded today. At noon seven tentative jurors were in the box. It is believed these will be little difficulty in getting the jury.

## ARCHBALD SCORES POINT IN DEFENSE

Vice President of Erie Road Exonerates Judge from Charges of Impropriety

### CALLED AT ROAD'S OFFICE

Brownell Admits Justice of Commerce Court Arranged Deal for Coal Pile

WASHINGTON, May 16.—Judge Robert W. Archbald of the commerce court, scored heavily today in defense of the impeachment charges before the house judiciary committee.

George F. Brownell, vice president and general solicitor of the Erie railroad exonerated the judge from any improper actions or motives in negotiating to buy the Erie's interest in the "Katy Did" coal pile, and John M. Robertson, Scranton, owner of a part interest in the coal pile, also gave testimony in his favor. Both Brownell and Robertson attacked William P. Boland, who brought the charges against Archbald.

"Grotesquely, absurdly, unqualifiedly and absolutely false," was how Brownell branded Boland's alleged statement to Attorney General Wickens that Brownell aided Archbald to secure the Erie's interest. Brownell indignantly demanded that Boland be prosecuted if his testimony was ultimately proved untrue. Brownell admitted, however, that Archbald went to the Erie railroad offices in New York last August and saw him and Vice President Richardson about closing up the title to the Katy Did bank. But he denied any improper overtures were made to him by Archbald. Robertson aided Archbald's defense by denouncing Boland as "prone to litigate." He also said that the Erie had offered to sell its interest in the Katy Did dump for \$2,000, or \$2,500 less than the price made Archbald, refuting the suggestion that a cheap price was given Archbald.

## HUNTING CLUB TO PUT MAN ON BOAT

Captain Smith Offers to Employ Representative of Association on "Curlew"

The La Crosse County Hunting and Fishing association will have a representative employed on the Curlew, the government boat which is employed in the saving of game fish minnows in the waters along the Mississippi river, if the offer of Captain Smith, who is in charge of the federal hatchery at Homer, Minn., is accepted. This offer was made to President A. T. Rasmussen today in a communication in which the captain promised to address the members of the association at its next meeting May 21.

Captain Smith suggests that the association pick out a man in whom the sportsmen of the county have confidence and he promises that he will give him a job on the boat. The carrying out of this suggestion would prove of benefit not only to the association but to the federal officials as well. In this way the association would know the methods employed in the rescuing of landlocked fish and the disposal made of them. Captain Smith also intimates that any suggestions the association desires to make in regard to the disposal of the rescued minnows could be made through their representative.

It is probable that the offer will be accepted and a man selected for the place at the meeting of the association in the court house Tuesday evening.

Captain Smith will speak on the government methods of propagating and protecting fish at this meeting. He will also outline the policy to be followed in the future movements of the Curlew in the waters of this vicinity. Plans for the future action of the club in regard to legislation will also be taken up.

### NORTHWEST SCENE OF FOREST FIRES

SEATTLE, Wash., May 16.—A hundred forest fires are raging in western Washington, and scores of persons are endangered. It is reported that ten persons perished in Whatcom county when a settlement there was burned. The bodies of five of the seven persons who burned to death when the village of Birdsview was destroyed have been recovered and identified.

## ALLEGES TORTURE BY VIGILANTES

Manager of "Anarchist Queen" Tells How He Was Tarr'd by San Diego Citizens

### SAYS TORTURE WAS CRUEL

Beaten and Abused, He Was Branded with the Lighted Ends of Cigars

LOS ANGELES, Cal., May 16.—Alleging that inhuman tortures had been inflicted on him by San Diego vigilantes who deported him from that city Tuesday night, Dr. Ben Reitman, manager of Miss Emma Goldman, today detailed the treatment that was accorded him by the "committee of citizens." He said that at times the torture became so "fiendish" that he begged them to kill him to end the pain.

Reitman said: "The men who captured me in my hotel looked like business men. When I refused to go with them, they put revolvers against my body, covered my mouth and dragged me to an automobile. The police outside the hotel cleared the way for them."

### Torture Inhuman

"When we reached the desert, another party was waiting. They had built a big fire and they took me up to it, stripped me and began such fiendish, inhuman torture that the details are unprintable. I begged them to kill me and end the pain and they replied that they wanted me to go away and tell how San Diego treated my kind. They said if Miss Goldman were there they would give her the same dose."

"Then they ordered me to sing the 'Star Spangled Banner.' I cannot sing very well, and at every false note, I was struck in the face. Several times while I was singing they knocked me down. They made me pray and my own cane was used as an instrument of torture. Being strong, I was able to stand what they did to me, even when it assumed the most fiendish forms. They made me run the gauntlet, beating me with whips as I made my way through the lines they formed. Finally, I was thrown on the ground and smeared with filth and a small American flag was thrust down my throat until I almost strangled."

### Burned With Cigars

"Then they discussed whether they would put my eyes out. They decided not to. Just before the tar was applied, they held me and burned the flesh on my back with live coals of their cigars. Then, while I lay prostrate, they plastered the tar over me and covered it with cactus and desert grass. "After that they stoned me as I tried to escape them in the desert, the men following me until they tired. After I had walked a long way I reached Berendo, naked, and bought a pair of overalls and a jumper which I wore into Los Angeles."

### TELEPHONE DEAL DENIED.

MILWAUKEE, May 16.—Officials of the Wisconsin Telephone company here today were unadvised of any pending negotiations of the Wisconsin company to take over the Fox River Valley Telephone and Telegraph company, one of the largest independent companies in Wisconsin and with exchanges in nine cities. A report from Appleton today stated that the deal had been consummated.

### CLARK CONTROLS IOWA

BELIEVED HE WILL GET TWENTY DELEGATES TO WILSON'S SIX FROM BURLINGTON CONVENTION

### BURLINGTON, Ia., May 16.—

Indications early today were that Speaker Champ Clark will have twenty of the delegates to the Baltimore convention from Iowa and Wilson six. However, the Clark men assert they will pass resolutions. At the state convention this afternoon instructing all 26 delegates to vote for the speaker but with 600 delegates uninstructed no one can tell until the roll call whether they can make the boast good or not. Followers of Woodrow Wilson are working against instructions and had started a counterboom for W. J. Bryan, which was stopped by telegraphic orders from the Nebraska.

Full 5,000 delegates and visitors man called the convention to order at 11 o'clock and M. F. Healy, the Fort Dodge orator, delivered his speech as temporary chairman. He did not mention Clark or Wilson in his address, but paid a glowing tribute to the late Gen. James B. Weaver, and drew a round of applause when he mentioned the name of William J. Bryan.

## WATER SUPPLY INEXHAUSTIBLE

Underground Supply Ample for City According to Engineering Firm's Report

### MALTBY'S PLANS ARE UPHELD

Williams Reports that Objections Were Trivial; Four Plans Are Submitted

The inauguration of a well system on the proposed site at Myrick park will furnish La Crosse with an inexhaustible supply of good water, is the finding of Alvord and Burdick, Chicago engineers who submitted plans and specifications for the new well system yesterday. After making a thorough investigation of the land and valley proposed for the site of the well, this firm has declared that the underground water supply is inexhaustible.

Four sets of plans for the new well system were submitted before the members of the special water committee yesterday. The estimates on each set of plans exceeded the estimates formerly made by about \$150,000.

### Maltby May Get Money

Engineer Benette Williams, Chicago, who was employed by the city council to make a thorough investigation and examination of the plans and specifications submitted by Engineer Maltby, made his report today, which contains the information that the objection to Maltby's plans were trivial and that the work was correct in general. This will doubtless mean that the city council will adopt a resolution to appropriate \$1,000 to pay Maltby in full for his work after which he will probably be discharged from further obligation. Had the report of Williams been to the contrary it was the intention of several of the aldermen to oppose payment of the remaining \$1,000.

A special meeting of the water committee has been called for tonight at which time the report of Engineer Williams will be read and inspected by the committee.

A special meeting of the council will be held Friday night to examine and hear the explanation of the four plans submitted by Alvord and Burdick. Action will probably be taken on accepting a set of plans at this meeting.

**Plans Same as Maltby's**  
The first plan submitted by Alvord and Burdick is practically the same as that submitted by Engineer Maltby with the exception that the estimate is about \$150,000 higher.

The second plan calls for a pumping plant at Myrick park, electric power, twenty wells, a small reservoir in Myrick park and a high pressure reservoir on Granddadd's bluff. The estimate for this is \$421,918.

The third plan calls for the use of the present station and the carrying of power by wire to the site of the wells. The estimated cost of this is \$449,770.

The fourth plan provides for the exclusive use of electrical power and first two plans were recommended, as they can be operated cheaper than the others.

The adoption of the third plan would tax the bonding power of the city within a few hundred dollars of its bonding limits. The city recently sold \$250,000 worth of water bonds, placing the outstanding bonds against the city within \$200,000 of the limit. It is possible to raise \$200,000 more before the limit would be reached.

It is slightly cooler this morning from Kansas and Nebraska to Minnesota and Wisconsin and frost is reported in South Dakota and Kansas. Generally fair weather is indicated for this section tonight and Friday with somewhat higher temperature Friday.

### SEVEN DEAD BODIES FOUND IN RUINS

TACOMA, S. D., May 16.—The charred bodies of seven persons were found in the ruins of the home of Chris Peterson in Lyman county. The bodies are supposed to be those of Peterson, his wife and five children. Whether the seven persons were murdered and their bodies burned or lost their lives in a fire is not known.

It's queer what a lot of chiggers there are clinging to us every time we take a trudge on that primrose path of dalliance.

## SOLDIERS TO GO ON TEST MARCH

Regiment to Move from Dubuque to Sparta with All Modern Equipment

ST. PAUL, May 16.—Six hundred and fifty soldiers of the Twenty-eighth infantry will leave Fort Snelling on June 2 for Dubuque, Ia., where, with soldiers from Fort Crook, Neb., and Fort Sheridan, Ill., they will form an ideal infantry regiment to make a long march and test the value of a new system of infantry organization recently perfected by the general staff of the army.

The movement is regarded by army men as the most important one since the recent mobilization of troops on the Mexican border. All kinds of modern appliances in the way of motor cars and ambulances, field telephone outfits, wireless telegraph apparatus and the latest models of machine guns will equip the regiment. It is probable that aeroplane equipment also will be carried.

Colonel Robert N. Getty, 27th infantry, will be in command and the regiment will be recruited to full fighting strength. The soldiers will march to Sparta, Wis., where they will take part in the annual army maneuvers.

The march will be made under regular service conditions and high army officers will make observations.

## SPARTA STORE CHANGES HANDS

SPARTA, Wis., May 16.—(Special)—The grocery and fruit store which was opened on Oak Street about three years ago, has been purchased by James Cole, formerly of Cataract, who moved to Sparta several months ago. He is a son of Mr. and Mrs. Andrew Cole, old time resident of Sparta and Monroe County.

The store was opened by Chas. and Frank Davis, brothers, but at the time of its sale, was owned and run by Mr. and Mrs. Chas. Davis.

**Pioneer Dies**  
Mrs. Frances Hannah Wood was laid to rest yesterday afternoon, after a long illness with cancer of the stomach. Interment was made in the Burns Cemetery, beside her husband who died some ten years ago.

Frances Hannah Wood was born in Genesee County, New York, October 18, 1837, the youngest of a family of nine children, three of whom survive. She is of puritan ancestry, her parents being lineal descendants of three of the governors of the early colonies, chief magistrates of the general courts. Two of her ancestors were named in the royal charters of the King Charles I and II; they show two "lineal armorials" or "coat of arms," which are recorded in the Encyclopedia of Heraldry, also in the family records. She was educated in the Cary Collegiate Seminary, Genesee County, N. Y. and taught successfully for several years.

She was married to T. Converse, an uncle of Roy Converse of this city, in September 1870, who was killed in a mill accident two years later. She was married to Tom Wood on December 21, 1875 and they made their home on a farm in the town of Burns, La Crosse County, until 1899, when they sold the farm and bought the home on West Main, where she resided until her death. Mr. Wood died on January 8, 1902.

Vine E. Taylor, who moved to Sparta from Tomah some sixteen years ago, passed away at 4:30 o'clock Sunday afternoon, after an illness of several weeks. The body was shipped to Tomah yesterday for burial at his old home, services being held from the Congregational Church at two o'clock.

Mr. Taylor was born in New York in 1849, coming to Tomah with his parents, when a little boy, living in Tomah over forty years and the remainder of his days in Sparta. He is survived by his wife and two daughters, Maude and Charlotte.

**Weddings of the Week**  
Mrs. H. Graf went to Chicago to be present at the wedding of her son William, who was united in marriage to Miss Josephine Schack of Chicago. The groom, who is holding the position of bookkeeper and stenographer at Thubert Art Gallery has been in Chicago for about three years. He is well known in Sparta and especially in Beaver Creek where his people owned a large farm for many years.

His sister, Miss Luella Graf, went to Chicago Friday to visit and attend the ceremony Mrs. Graf and daughter will visit there and at other points for about three weeks.

Every time we are fatuous enough to try to argue it out with ourselves as to whether we're going to "have one" we infallibly end by having it.

## IOWA DEMOCRATS MEET FOR FIGHT

Biggest Convention in History of Party in the Hawkeye State Convened

BURLINGTON, Iowa, May 16.—With ten brass bands, houn' dogs by the pack and now and then a Missouri mule, the democrats are coming on special and regular trains from all over Iowa for the biggest state convention here today they have held in many years.

Fully 25 county delegations were here at noon yesterday and by last night half of the delegates were on hand to attend the Champ Clark rally at the Coliseum, which was addressed by Bennett Clerk, son of the speaker, who arrived from Washington, D. C., armed with a big map of the United States corrected to date to show that his father has 325 delegates to Baltimore. The lobby of the Hotel Burlington is packed with democrats wearing buttons and badges, two-thirds of which are Clark emblems.

W. D. Jamieson, manager for Clark, says the Clark men will control the caucus in the First, Second, Fifth, Sixth, Eighth, Ninth and Tenth districts, that there will be a fight in the Third, Fourth and Seventh and that Wilson has the Eleventh. Jamieson says the convention will instruct for Clark without trouble.

Earl Bronson, Wilson manager, says he will fight "till the last houn' dawg expires" to prevent instructions and some of the Wilson men are openly working among the Clark delegates for Bryan, the idea being to prevent instructions. The Clark men will control the committee on resolutions and bring instructions for the speaker and on this report and the minority report will come the first test of strength.

## A FEW DIAPEPSIN WILL REGULATE A BAD STOMACH IN FIVE MINUTES

It is so needless to suffer from Indigestion, Dyspepsia, Heartburn or a sour, gassy, upset Stomach.

"Really does" put bad stomachs in order—"really does" overcome indigestion, dyspepsia, gas, heartburn and sourness in five minutes—that—just that—makes Pape's Diapepsin the largest selling stomach regulator in the world. If what you eat ferments into stubborn lumps, you belch gas and eructate sour, undigested food and acid; head is dizzy and aches; breath foul; tongue coated; your insides filled with bile and indigestible waste, remember the moment Diapepsin comes in contact with the stomach all such distress vanishes. It's truly astonishing—almost marvelous, and the joy is its harmlessness.

A large fifty-cent case of Pape's Diapepsin will give you a hundred dollars' worth of satisfaction or your druggist hands you your money back.

It's worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home—should always be kept handy in case of a sick, sour, upset stomach during the day or at night. It's the quickest, surest and most harmless stomach doctor in the world.

### THE ELKS AND THE BUILDER

The fellowship and lofty purpose displayed by more than 150 fine young men at the Elks' banquet on Tuesday night, the evidences of substantiality for today and growth for tomorrow, must have been a source of gratification to every Elk to whom these things brought more vivid realization of his own part in an organization which Judge Karel so aptly described as "typically American."

The importance of the Elks to La Crosse is, we believe, appreciated by many citizens not affiliated with that organization. The "Big Brother Movement," which they have taken up, is recognized as one of the possibilities for good which are wide. Their efforts in behalf of worthy charity, while unostentatious, have attracted considerable attention both by the liberality of their spirit and their common sense methods of application.

Those who criticize the Elks take their complaint from the past and apply it illogically to conditions which it does not fit. Perhaps in no great order have recent years seen changes for the better so radical and so fundamental. One need not pass judgment upon the past. Look at the present. "By their works ye shall know them." What organization of human beings today is doing more for its own members, or for society in general, than the Elks? Where can there be found a finer, more manly body of young men than those who constitute Elksdom in LaCrosse? Were this society not good in all its fundamentals, did it not exert an uplifting influence and present worthy ideals, could it attract and hold the flower of La Crosse's youth? Those initiated know precisely its merits; we are attempting analysis only of those outward facts that may come under the observation of non-members.

It is our faith that there is a growing public appreciation of these good things that have come to be recognized in the Elks as an organization, which inspires the idea that this new triumph of the order in La Crosse is of public interest. The banquet was a great achievement, and it commemorates a significant event, for the provision of a new and adequate home for this organization is but an outward manifestation of its expansion in all things—mental, moral and religious scope; membership, influence and power to achieve.

In passing we wish to renew our congratulations upon the success of the dedication attained by the intelligent, vigorous and unselfish efforts of officials and members. We might single out those who bore the heavier burden for special commendation, but every Elk who participated was interested and did his part as he saw it, and in Elksdom no

thought is more familiar than that of the late Admiral Schley—"there is glory enough for all."

But one word we would say on behalf of all Elks—a word spoken freely by members everywhere, and emphasized in the address of District Attorney James Thompson. Nothing in the history of the local lodge has ever met with commendation and appreciation so general as have the relations of the order with Sidney Law, builder of the new home, whose patient courtesy, zeal to please and accommodate and intelligent assistance made the building of the edifice a delightful experience to all who had to do with the task. In its completion it typifies the generosity of its builder.

### EIGHT YEARS OF PROGRESS

Eight years ago today the first number of The La Crosse Tribune made its appearance. It was published within thirty days from the date upon which the company was organized and the enterprise formulated. Its equipment was ordered by telegraph. It was founded upon meager capital, and with a small staff. Necessarily it was put forth in modest form, for its resources were such that it was obliged to hew close to the line in matters of expense, attempting to pay its own way.

The history of The Tribune affords a perfect illustration of the fact that to succeed a newspaper must reflect the purposes and sentiments of a majority of its field, and that the paper that does so will succeed. With paid up capital barely sufficient to pay for publication of The Tribune as it appears today for a period of six weeks, the then new Tribune entered successful competition with two long established newspapers. From the start it was loyally supported by a majority of the citizenship, and while it encountered obstacles and "hard sledding," it rapidly won its way into the life of the community and became a household necessity.

The success of the paper, after three years, attracted the attention of experienced publishers, whose reason for becoming financially interested in it was frankly stated to be its popularity with the majority of average people. They brought to it financial strength, and the advantage of more experienced men, the efficiency of whom they supported by standing by the old policy of the paper. From the first, under this new impulse, The Tribune forged ahead until today it is recognized not only as the leading paper in its local field, but as one of the three greatest papers in the state outside Milwaukee, and as the equal of any of the papers in the state metropolises.

Aside from ordinary diligence the publishers make but one claim for the success of The Tribune. That claim is that they had the wisdom and fairness to publish for the people of La Crosse the kind of paper a great majority of the people of La Crosse want. We have been guided by mature public opinion; The Tribune has reflected public sentiment, seeking to be the servant of its patrons. To that policy we attribute the fact that this paper has forged to the front and is now impregably fortified in the approval of the community.

It is our birthday sentiment that in the future, as in the past, The Tribune shall be the mouthpiece of the people, its mission to serve, its motto, "Equality is Justice."

### Caught at Last

"For the land's sakes!" Mrs. Hodges exclaimed. "Every church that's held a revival in this town for thirty years has failed to get old Mr. Newton, because he's so pizen rich. The Methodists missed, and the Baptists missed, and the Campbellites couldn't do no better. Now, the Piskobals have hooked him, you say?"

"I was there to see it," Miss Wallace rejoined. "The bishop confirmed him, and the choir couldn't hardly wait before they bust out with a song: 'Tis done, 'tis done; the great transaction's done!'"—New York Press.

## The Yellow Letter

A FASCINATING MYSTERY STORY.

BY WILLIAM JOHNSTON.

Copyright 1911—The Robbs-Merrill Co.

What was it?  
I pulled myself together with a start and looked about me.

With an exclamation of horror I sprang from the bench and gazed into the lake just in front of me. Floating on the surface, not fifty feet from where I had been sitting, was the body of a woman.

"Other suicides, other suicides!"—Davis' remark of two days before kept jiggling through my brain. Other suicides! Katharine, Elser, the woman at Ardway—his prophecy had been right—and was this another in the terrible chain?

I ran like a madman toward the park entrance, where I remembered I had passed a policeman. It was with relief that I found him still there.

"There's a woman—drowned—in the lake!" I gasped, pointing over my shoulder.

He ran back to the lake with me and together we waded out into the shallow water where the body lay. In my horror at the unexpected sight I had not stopped to note her appearance, nor could I have told whether she was young or old, dark or fair.

I looked at her now with more than interest—with a feeling of sorrow, of understanding. The deed of Katharine Farrish had brought me to a closer sympathy with unfortunate persons influenced, to seek death. As I saw that this poor girl was young and fair I sadly wondered what tragedy had driven her to drowning.

Never shall I forget the impression the picture of this suicide made on me! She lay on her back, with long blonde tresses of well-kept hair floating out on either side of her shapely head. Her eyes were closed, but her shapely brows and long dark lashes made her face comely even in death. Her clothing, I observed, was well-made, and though wet and soiled as it was by the water, it still gave the impression of neatness.

We grasped the body gently by the arms and drew it in to the bank, where we lifted it to the park bench on which I had been sitting.

"I wonder if there is anything about her to identify her by?" said the policeman, and together we looked.

Apparently there was nothing. There were no rings on her hands, though the fingers were those of a woman of refinement. The officer turned back the collar of her coat, but the name of the maker had been cut away.

"She didn't want nobody to know who she was, I guess," he said after a hasty examination. "They generally try to hide their names."

"Yes, I suppose they do," I said apathetically.

"I've got to go over to the arsenal and report this and send for the wagon. Will you wait till I come back? I won't be long."

"I'll wait," I said.

He disappeared up the path and I was left alone with the body. As I sat there, meditating on the mys-

## "Got My Sore Foot in It Right!—TIZ"

"A TIZ Bath, My Boy, a TIZ Bath! You Can't Beat It For Sore Feet, Corns and Bunions!"

Is this man a tender-foot? No. He is joy-walker—one who uses TIZ and gets from the feet a happiness one never felt before.

When your feet are so tired they feel like stumps, when they ache so that they hurt way up to your heart when you shamble your feet alone and it seems as though all the misery you ever had has settled in your feet, look at the happy TIZ man in the picture.

You can be happy-footed just the same. If you have corns and bunions that everybody seems to step on, just think of this happy TIZ man. He had corns and bunions, too. This man used TIZ, and now he has no more tender, raw, chafed, blistered swollen, tired, smelly feet, corns, callouses or bunions.

As soon as you put your feet in a TIZ bath, you feel the happiness soaking in. It's like mountain ozone to lungs.

Nothing else but TIZ can give you this happy foot feeling. Don't accept any substitutes.

TIZ, 25 cents a box, sold everywhere, or sent direct, on receipt of price, by Walter Luther Dodge & Co., Chicago, Ill. Recommended by all Drug Stores, department and general stores.

tery that had caused so many other tragedies, I became conscious of the fact that one of this girl's hands was closed, as if, even in death, she was striving to conceal something.

Stooping over, I gently pressed back the stiffening fingers.

An exclamation of horror came to my lips as I saw what had been concealed there.

It was a little scrap of yellow paper.

I could hardly believe my eyes. It must be that this poor girl here was another of the victims in the baffling chain of crime I was seeking to unravel. I held the water-soaked fragment up to the light, but there was nothing on it—not a word. Yet there was no mistaking the color and texture of the paper. It was undoubtedly the same that Louise and I had found in Katharine's room after she had tried to kill herself. It was the same that the police had discovered in old Andrew Elser's room. There was no question in my mind but that it was the same that the woman in Ardway had torn up before she hanged herself in the little hotel. But what was the tie between them? What could be the mysterious import of this yellow letter that drove its recipients to death?

Here was one fragment. Perhaps I could find other scraps—perhaps the whole letter. I ran down to the bank of the lake and began a systematic search of the water along shore. Foot by foot I studied it carefully. For ten minutes I searched unavailingly, and then I caught a glimpse of something yellow half hidden by an overhanging tree. Carefully I parted the branches. Sure enough, submerged in six inches of water, were more of the yellow scraps. I waded in and, scooping them up carefully in my hands, laid them on the grass to dry, for they were all but falling apart and I hardly dared handle them. Meanwhile I continued my search for other yellow scraps—this time without avail. If she had carried a torn-up letter with her as she sprang to death, the other pieces had floated away.

At last, convinced that there was no possibility of recovering more of them, I gave up my search and returned to where I had spread the

recovered scraps on the grass. One by one I studied them. They were evidently a part of a type-written letter, but the ink had run so that it was impossible to read a single word on them. From their shape, too, it appeared that they were not consecutive, so there was little hope of learning anything from them.

## The Rival Suitors

News Item: President Taft and ex-President Roosevelt are both going to concentrate their efforts on stamping Ohio from now until primary day, May 21st, each in an effort to win the delegation of this important state.

There will be a competition that will be strenuous and interesting, but in political competition, unfortunately, not always the best men win. In our business we fear no competition, for sooner or later quality will assert itself. That is when we win out and make loyal patrons.

## Quips and Cranks and Wanton Wiles

### The Ideal Wife

A wife whose love has vanquished doubt and fear;  
In faith and courage man's eternal mate;  
Of reason and of will commensurate;  
A loveliness that time will but endear,  
Whereof the flower, unfolding, year by year,  
A soul more beautiful, with light elate,  
Steals sweetness from the winds of adverse fate,  
Like summer lilies, fed with radiance clear;  
Man's home and comrade, passionate, pure and strong;  
Among the merry, gay with quip and jest;  
To all the sad and lonely, motherhood;  
The heart of him she loves, to war with wrong.  
He is her strength, and she to him is rest,  
Revealing, each to each, truth, beauty, good.

### Not Lawful

The late Thomas B. Reed, when a lad, was requested to bail out a small boat that had been leaking badly, and was almost full of water.

"I can't do it," replied Tom. "It's unconstitutional."

"What do you mean?" inquired the owner of the boat.

"The constitution of the United States," replied the future statesman, "that 'excess bail shall not be required' of any man."—Youth's Companion.

### Modern Grammar

A young lad, just returned from boarding school, upon being asked by "dad" how he stood in grammar at the end of the term, came back with something like this:

"Say, dad, take it from me, grammar was my long suit. On the start off I was up against it hard. Couldn't get it through my noodle. Fell

down every time I went to class. Finally I says to myself, look here, old kid, it's up to you. You've got to cut out the funny business and take a brace or you'll see your finish, the surest thing you know. Well I studied, believe me. And say, when it came to the final exams, did I lose out? Not on your life. I was right there with bells on. There was certainly some class to the way I answered those quizzes. A cold mark of ninety-five when it was all over. Not so worse, eh? Can you beat it? How I did it, I don't know. You can search me. But anyhow it's going some, eh, dad? None of em's got anything on me when it comes to grammar, that's a cinch.

Could Spare Maria  
"Now, ladies and gentlemen," said the conjuror, pointing to his magic cabinet, "I beg to call your attention to the great illusion of the evening. I will ask any lady in the audience to enter the cabinet. I will then close the door; when I open it again the lady will have disappeared, leaving no trace."

In the second row of the audience a puny, undersized man, with a haunted, harassed expression, turned, with a strange gleam of hope in his dull, mild eyes, to an enormous female who sat next to him. She had a strong, stern face, with black beetling brows, and a chin like the ram of a first-class battleship. "Maria, dear," he said eagerly, "won't you oblige the gentleman?"—Ideas.

#### YOUNG SAMPSON DECLARED VICTOR

North Side Man Wins Over Prairie du Chien Wrestler; Pake Gives Up

After wrestling an hour and four minutes without a fall, Charles Pake of Prairie du Chien fell over and quit, thus giving the match to Young Sampson, the well known local wrestler. The match was held in the Metropolitan theater at Prairie du Chien and was witnessed by a large number of enthusiasts. When Pake quit the match was awarded to Young Sampson.

Sampson had the best of the match throughout and he was on the back of his opponent all the time except once when Pake was behind the local man, but he did not maintain that position long. Pake weighed in at 150 pounds while Sampson's weight before the match was 137 pounds. In spite of this handicap in weight Sampson had the advantage and it was evident to the spectators that he was the better wrestler.

When an hour and four minutes had passed without a fall, Pake fell over and said that he was done. He appeared to be all in and unable to go any further with the match. Several times during the match Sampson had the toe hold on Pake but he could not keep it because he was too heavy for him. C. J. Johnson of Prairie du Chien refereed the match.

### WISCONSIN NEWS

#### \$1 PER MINUTE PAID BY MANAGER

MADISON, Wis., May 16.—An offer of "a dollar a minute" for a prize vaudeville sketch at the University of Wisconsin, led to trouble for William Keitzman, Eau Claire manager of the university engineers' minstrel show last March.

The management of the show offered the prize for the best sketch produced by the students, to be played as part of the minstrel show. When the winning sketch was staged in the tryouts, it took fifteen minutes, but when produced it lasted twenty-two and one-half minutes. Fifteen dollars was the amount which the management offered to the prize winners, but they insisted on receiving \$22.50, and upon refusal, carried the case to court. The court decided that they should receive the latter amount.

Because of the fact that the organization which had produced the minstrel show was only a temporary one, which has already disbanded, the court ruled that Keitzman must pay the contested amount to the plaintiffs.

## Buick Climbs to Mt. Diablo's Top

With Three Passengers and 700 Pounds of Baggage It Makes the Perilous Ascent

THE BUICK MODEL "35" AT THE TOP OF THE PEAK

A demonstration of the fact that the low-priced motor car of today can carry four passengers almost anywhere under the sun they may wish to go, was made last Saturday when a model "35" Buick climbed to the top of Mount Diablo with three grown men and about 700 pounds of baggage, the property of some thirty members of the Sierra club who were camping over night at the top.

The car was driven by Earl de Vore of the Howard Automobile company and carried Claude McGee of the same company and a newspaper man. It climbed the grade which represents an ascent of some 4,000 feet without mechanical difficulty and under its own power at all times.

The car with its three passengers left Oakland Saturday noon traveling by way of the Tunnel

road to Danville, Contra Costa county, where it picked up the baggage of the Sierra club members and obtained a special permit to enter the private roadway at the entrance of Pine canyon leading to the mountain trails.

No sooner was the canyon reached than the difficulties of the hazardous undertaking presented themselves in the shape of dangerous inclines where washouts and sharp narrow twists occurred with a frequency that would dishearten a mountain burrow. Throughout the entire climb, however, the car hung tenaciously to its grinding task and brought its load to the very top of the mountain, and then, to further show its power, wormed its way up the rocky formation at the peak and rubbed the radiator against the brick monument that

marks the surveying point for California, Nevada, Utah and Arizona.

The party camped at the top all night, and on Sunday, after photographing the car in its perilous position, started on the descent, where the only barriers between its occupants and a wild plunge into eternity were Driver de Vore's nerve and the powerful braking of the machine—both of which proved to be equal to the task.

On the way down the car carried four passengers, besides its heavy load of baggage, as one of the club members bruised a foot so severely on the rough climb that he was unable to walk the return trip.

The Goodyear tires used by the Buick rendered perfect services during the hard test.—From San Francisco Chronicle, April 7.

## PRESBYTERIANS IN ANNUAL ASSEMBLY

\$10,000,000 Pension Fund for Retired Pastors to Be Considered at the Louisville Meeting

LOUISVILLE, Ky., May 16.—The establishment of a \$10,000,000 fund for the pensioning of retired ministers, and the selection of a new moderator are two of the most important matters that will receive early attention of the 124th annual conference of the general assembly of Presbyterian church which began here today. The work of the conference will consume at least one month.

Unusual interest attaches to this conference for the reason that never before has the general assembly been held south of the Ohio river. A movement to merge the United Presbyterian church with the General Assembly Presbyterian church is looked for by many who see in the selection of Louisville for the meeting a relaying on the part of its opponents in the assembly. An attempt will be made to re-establish relations between the assembly and Union Seminary of New York which were severed after Dr. Charles Briggs, a professor at the seminary, was expelled on a charge of heresy. Since then that school has been eliminated from the assembly's list of accredited seminaries.

## "ON A ROOF GARDEN" TO BE GIVEN MAY 27

The date for "On a Roof Garden" has been changed to Monday, May 27, instead of May 23. This is done so as not to conflict with either the high school play or the Knights of Columbus dance. Last night several new songs were rehearsed. "That Ragtime Glide," which Aubrey Richmond will sing with a big dancing chorus of seventy-five. An exquisite number is "The Men I've Met." The stage business in this is very elaborate and a large number of silk scarfs which Mr. MacDonald had dyed all the various pasturum shades, are used. These scarfs are made by Mrs. Allison of New York, who is famous for her wonderful color effects. "Have You Any Brothers?" is one of the funniest songs imaginable, and is a worthy successor to "The Girl from Sherry's," which scored such a big hit in "Up and Down Broadway," three years ago. The same clever trio will appear in this new number. The music was written by Earl Bronson especially for Donald MacDonald. Mr. MacDonald has been making a great hit with his classic dancing and he received most flattering notices from the New York critics at his recent Brooklyn production. He will perform either Chopin's "Andantino" or "The Valse Caprice" by Rubinstein.

The Real Secret of Rejuvenating the Face

(From The Clubwoman.)

She holds the true secret of facial rejuvenation who has learned how to remove the dead skin particles as fast as they appear. It's a secret anyone may possess. The aged, faded or discolored surface skin may be gradually absorbed, in an entirely safe and rational manner, by the nightly application of ordinary mercerized wax.

Within a week or two the underlying skin, youthful and beautiful to behold, has taken the place of the discarded cuticle. So little of the old skin is absorbed each day there's no inconvenience at all, and no one suspects you are putting anything on your face. The mercerized wax, procurable at any drug store (an ounce is sufficient), is applied like cold cream. In the morning it is erased with soap and water. It's the best thing known for freckles, blackheads, pimples, moth patches, liver spots and fine surface wrinkles.

For the deeper wrinkles an excellent recipe is: Powdered salolite, 1 oz., dissolved in ½ pt. witch hazel. Bathing the face in the solution produces quick and wonderful results.

## ELDERLY FOLKS! CALOMEL, SALTS AND CATHARTICS AREN'T FOR YOU

Harmless, gentle "Syrup of Figs" is best to cleanse your stomach, liver and 30 feet of bowels of sour bile, decaying food, gases and clogged-up waste.

You old people, Syrup of Figs is particularly for you. You who don't exercise as much as you need to; who like the easy chair. You, whose steps are slow and whose muscles are less elastic. You must realize that your liver and ten yards of bowels have also become less active.

Don't regard Syrup of Figs as physic. It stimulates the liver and bowels just as exercise would do if you took enough of it. It is not harsh like salts or cathartics. The help which Syrup of Figs gives to a torpid liver and weak, sluggish bowels is harmless, natural and gentle.

When eyes grow dim, you help them. Do the same with your liver and bowels when age makes them less active. There is nothing more important. Costive, clogged-up bowels mean that decaying, fermenting food is clogged there and the pores or ducts in these thirty feet of bow-

els suck this decaying waste and poisons into the blood. You will never get feeling right until this is corrected—but do it gently. Don't have a bowel washday; don't use a bowel irritant. For your sake, please use only gentle, effective Syrup of Figs. Then you are not drugging yourself, for Syrup of Figs is composed of only luscious figs, senna and aromatics which can not injure.

A teaspoonful tonight will gently, but thoroughly, move on and out of your system by morning all the sour bile, poisonous fermenting food and clogged-up waste matter without gripe, nausea or weakness.

But get the genuine. Ask your druggist for the full name, "Syrup of Figs and Elixir of Senna." Refuse, with contempt, any other Fig Syrup unless it bears the name—prepared by the California Fig Syrup Company. Read the label.

## GOTHAM JUDGES UNDER A CLOUD

Investigation Being Made of Charges of Undue Leniency in Special Sessions Court

NEW YORK, May 16.—Four judges of the court of general sessions here are under investigation today by the appellate division, the Bar association and the district attorney's office on sensational charges relating to alleged illegal methods of conducting trials, directing verdicts of acquittal; treatment of witnesses and jurors; arbitrary exclusion of evidence and suspension of sentence upon convicted criminals.

The investigation, it was learned having gone on quietly for months and if warranted by evidence proceedings may be instituted for impeachment of implicated judges.

In one of the cases cited a judge directed a verdict of acquittal for a confessed thief on the ground of an "improper remark" from the assistant district attorney. In another case the \$4,000 bail of Louis Poggi, a notorious gunman and crook, previously declared forfeited for non-appearance, was returned without the knowledge of the district attorney's office. Poggi has since disappeared.

### THAW HAD THREE MARKED TO KILL

Letter Published in Which Stanford White's Name Was Third on List of Doomed

NEW YORK, May 16.—The New York Herald today published a letter purporting to show that the name of Stanford White was only third in a list of five of Harry K. Thaw's alleged enemies, opposite the names of three whom was written "Kill" heavily underscored. The letter was alleged to have been written by Thaw from Pittsburgh to a confidential agent in New York, in December, 1903, three years before the killing of White, June 25, 1906. The list follows:

Bancroft Davis, Kill; Freddy Gebhard, Kill; Stanford White, Kill; Craig Wadsworth; Reginald Franklin.

J. C. Bancroft Davis is well known in New York society and a member of the Knickerbocker and other exclusive clubs. Frederick Gebhard died in 1908. Reginald Franklin is not in the city. Craig Wadsworth, in Washington, said he had never heard of the letter and knew of no reason why his name should be connected with it. It is said that the letter will be used as evidence by the state in the coming effort at White Plains to keep Thaw in Matetan.

### CHURCH VOTES ON MEN FOR BISHOPS

150 Ministers in Field for Election to Highest Post in Gift of Conference

MINNEAPOLIS, Minn., May 16.—Balloting on new bishops began this morning in the Methodist general conference. The committee on Episcopacy reported in favor of electing eight new men to the office and the first ballot began at 10 o'clock. No nominating speeches were permitted and the field of candidates and the relative strength of each will not be known till the poll is completed. A two-thirds vote, 530, is necessary to elect.

Intense excitement prevails over the coming election. Some 150 ministers were spoken of for bishops. The most prominent and frequently mentioned were David G. Downey, Charles B. Mitchell, Homer G. Stuntz, Charles E. Locke, Christian R. Hargraves, Theodore Henderson, Mathew S. Hughes and Nathalia Luccock.

The action of the conference yesterday in retiring Bishops Warren, Moore and Neely is bitterly resented by a large minority of the conference. It is hinted that it was a prearranged plan to make room for aspiring and ambitious men.

The Episcopal residence at Zurich will be changed to Copenhagen and a new Episcopal see established at Rome.

The amusement question comes up in today's session. Chancellor James R. Day of Syracuse university will present a minority report and lead the fight of the radicals in having expunged from the discipline the objectionable paragraph 260, forbidding dancing and card playing. Dr. Edwin Locke will lead the conservative element.

The anniversary of the Epworth league was held last evening. Bishop Quayle presiding. Gratifying progress has attended the Young People's society during the quadrennium.

### WOULD REDUCE INTEREST RATES

President of Group No. 7 of Wisconsin Bankers Says 4 Per Cent Is Too High

### URGES BANKS TO CO-OPERATE

McConnell Speaks on Banking Legislation; Nearly 125 Bankers in Convention

The seventh annual convention of Group No. 7 of the Wisconsin Bankers' association opened here in the city hall this morning with an attendance of about 125 bankers from the neighboring territory.

The convention opened with an address of welcome in behalf of the city by Mayor John Dengler, who assured the bankers of the hearty co-operation and good wishes of the citizens of La Crosse. Andrew Drew, cashier of the bank of Tomah, representing the delegates, responded to the address of welcome.

**Can't Pay 4 Per Cent**  
A. W. Barney, president of group No. 7, and vice president of the Bank of Sparta, in giving the annual address, declared that the banks of Wisconsin can not afford to pay 4 per cent on deposits and that this is done only where the competition is greater than the business warrants. He recommended that bankers who are forced to pay such a high rate owing to competition should get together and reduce rates as successful banking can not be carried on under conditions of that kind.

Following his address, E. J. Wiles, secretary and treasurer of Group No. 7, and cashier of the Bangor State bank, submitted his annual report which showed a cash balance of ten cents, May 12, 1911, and cash on hand to the amount of \$44.25 May 12, 1912. This report was adopted.

**Bank Legislation**  
Assemblyman J. E. McConnell spoke on "Banking Legislation During the Last Ten Years," and declared that all of the legislation which has been passed has been beneficial to both the banker and the people.

He said "The passing of the law permitting the insurance of deposits is one of the greatest steps taken toward the advancement of banking. The bill passed by the 1911 legislature enlarging the number of bank examiners, increasing their salaries and giving them greater authority was also a great step in advance."

He discussed several other laws relative to the banking system of Wisconsin and highly commended the law which created state regulation of banks and which established the state banking commission.

A. W. Barney then appointed resolution and nomination committees as follows:  
Resolutions—George Dudley, West Salem; J. M. Holley, Jr., La Crosse, and O. J. Lindeman, Viroqua.  
Nomination—W. W. Warren, Tomah; W. T. Lindeman, Viroqua, and J. T. Cance, Galesville.

The morning session was adjourned following the appointment of these committees.

**Mutual Insurance.**  
The afternoon session opened with an address by H. A. Moehlenpach, cashier of the Citizens' State bank of Clinton, Wis., and a member of the committee of the state association on mutual insurance.

He spoke on "Mutual Insurance of Bank Deposits" and declared that a law would be passed making this compulsory action to prevent it. The bankers of Wisconsin were severely criticized for the lack of interest in banking legislation. This was followed by an open discussion.

T. S. Adams, of the Wisconsin state tax commission, spoke on the "Income Tax Law" late this afternoon, after which election of officers was held.

The delegates will attend the Majestic theater in a body tonight. A social session will be held at the La Crosse club following the theater party.

### SON OF MILWAUKEE FOUNDER A DRIVER

MILWAUKEE, May 16.—In the same building which his grandfather, Solomon Juneau, founder of this city, deeded to the county in 1837, the county court house, now worth \$700,000—Frank C. Juneau, 21, a teamster, today secured a license to wed Miss Hildagard Lepert, 19, also poor.

"I am a lowly teamster," said Juneau, when procuring the document, "but have my noted grandfather been more considerate of his posterity, I would now likely be one of the '400'."

"But, such is life," sighed the young man, as he took his bride by the arm and went in search of a justice of the peace.

### NO DEMAND FOR STATE GUARANTY

Bankers' Paper Says Fussing Over Solvent Banks Looks Like Waste of Energy

### Under the title "A Waste of Good Energy," The Commercial West, a Minneapolis paper devoted to the interests of bankers, in a recent editorial declares that there is no public demand in Wisconsin for the enactment of a state guaranty of deposits law. The editorial declares that the organization of the Bank Deposit Mutual Insurance association which is being perfected by the bankers of the state is a result of the threat of the state legislature to enact such a law. The editorial is given as follows:

"The bankers of the state of Wisconsin are going ahead with the organization of a Bank Deposit Mutual Insurance association. After much discussion in the state and group conventions, which was forced upon the bankers by the threat of the state legislature to enact something after the style of the Oklahoma guaranty law, Wisconsin bankers are finally devising a bank deposit insurance scheme which shall be voluntary and not compulsory. At least 200 banks must join the association before any risks can be written."

"All this fussing for several years to make solvent banks safe looks to us like a waste of good energy. The people of Wisconsin have over 200 millions deposited in Wisconsin banks. No depositor in a bank of that state is suffering loss on account of bank failures. The banks of Wisconsin are as sound and free from embarrassment as those of any state and in all the talk about insuring deposits that has taken up valuable time for years past, it has not been pointed out that depositors in Wisconsin banks are losing money or that banks are not safe. Some banks have been closed up in Wisconsin, but very few in recent years, and in such cases the depositors have been paid in full, the loss, if any, falling on the stockholders of the bank. Then why bother with insuring something that needs no insurance?"

"There is absolutely no popular demand for this thing. If the depositors were losing heavily through bank failures there might be some excuse for such a scheme. But with banking conditions in Wisconsin sound as they are, there seems to be no sense or reason for bank deposit insurance."

**ARRANGE SEATING OF G.O.P. CONVENTION**  
CHICAGO, May 16.—Harry S. New of Indiana, chairman of the sub-committee on arrangements for the republican national convention, today looked over the plans of the architects for arranging the Coliseum annex and ordered work to proceed on all the matters that can be attended to before the meeting of the sub-committee here on Saturday. New said he was well pleased with the plans for seating the delegates, so far as his part of the details was concerned.

The stork brought Mrs. Wiley a nine-pound "just plump tickled to death." Both Mrs. Wiley and the youngster are doing splendidly. Dr. and Mrs. Wiley were married last spring. Mrs. Wiley is an ardent suffragette. Dr. Wiley will be 66 years old next October.

### CAN'T VOTE IN SEPTEMBER

COLUMBUS, Ohio, May 16.—Women of Ohio, who are working for the approval of equal suffrage at a special election to be held September third, will be prevented from voting at the presidential election in November even if enfranchised two months earlier. The constitutional convention committee has decided that the new constitution shall not become effective until January 1, 1913.

### 5,000 IN PATH OF THE FLOOD

All Boats Available Helping to Rescue People from Water of the Hymenalia Break

### NEW ORLEANS, La., May 16.—

With every available motorboat in commission and the revenue cutters Windom and Winona aiding in the work, every effort was being made today to rescue 5,000 persons who are directly in the path of the waters pouring through the great crevasse at Hymenalia.

In one sugar house alone on the Glendale plantation are 150 refugees waiting to be taken off in boats. The break in the levee was 1,000 feet wide this morning, but the engineers will co-operate with the state forces in stopping the Hymenalia crevasse, such as can be done, but the state of Louisiana must foot the bill. The preliminary work will cost about \$200,000. Planters and other residents of the submerged section today expressed the greatest indignation at the delay in making repairs. Water is now three feet deep in the town of Killona and the inhabitants have deserted the place. There are 25 deserted towns of considerable size in the flooded sections of twenty parishes. A telephone message this morning says that the waters from the Hymenalia crevasse have reached Bonnet Carré, 115 miles north of Killona, and are rolling into the back country at a furious rate.

Six negroes have been drowned in various parts of the flood district within the past twenty-four hours. Among the refugees in New Orleans are two negroes who are raving maniacs.

Government reports today show that 14,000 persons are being fed by the commissary officers. Many of these are at Melville. Water is still flowing into that town, and only boats can be used in the streets.

### TITANIC SURVIVORS STARVED IN BOAT

NEW YORK, May 16.—Bits of cork in their mouths and tooth marks on the cork and wood portions of the boat indicated that starvation killed the three Titanic victims whose bodies were in a Titanic collapsible lifeboat picked up by the White Star liner Oceanic which arrived here today.

Two of the bodies were secured to thwart by pieces of chains. The body of a cabin passenger was identified by the clothing as that of Thompson Beattie of Chicago. The other two were members of the crew. A fur coat with the name "Williams" inside the pocket and a woman's ring inscribed "Edward to Cedra" indicated that there had been others in the lifeboat. The bodies were buried at sea.

White Star line officials say that the lifeboat is that mentioned by Third Officer Lowe of the Titanic, who said he left three bodies in the lifeboat of which he had charge when his 21 people were transferred to the Carpathia. This does not conform with the evidence of starvation.

### WISCONSIN MAN TO SETTLE DOUBTS

### MOTHER CLAIMS TITANIC WAIFS

Beautiful Italian Woman Recognizes Babies Saved from Wreck as Her Own

### KIDNAPPED BY HER HUSBAND

French Spouse Had Stolen Children After a Separation from His Wife

NEW YORK, May 16.—Lola and Momon, the little waifs of the Titanic disaster, snatched from the sea and kept for a month in a big strange land, today were clasped in the arms of their mother, Mme. Mariette Navratil, who arrived from France on the White Star liner Oceanic.

Hurrying down the gang-plank, after kindly customs officials had facilitated her landing, Mme. Navratil, who is an Italian woman, 24 years old, of remarkable beauty, rushed to Miss Margaret Hayes, the rescuer of the two little boys, who with her father was waiting on the pier. They took her in a cab to the Children's society rooms and there she was reunited with her children.

The little boys, 4 and 2 years old, were thrust into one of the last of the lifeboats to leave the sinking Titanic by an excited Frenchman, who asked that they be cared for.

A steward told him he could not enter the boat and he said he did not want to, but must save his boys. Miss Hayes was in the boat and she at once took the children under her protection. Arriving in New York on the Carpathia, Miss Hayes at first could learn nothing of the children's identity and she planned to care for them. Then developed another chapter of the weird story of the disaster of the ice fields. The Frenchman's body was recovered and taken to Halifax where it was found that he was booked on the passenger list under the name "Hoffman." Cable messages to France brought the information that Mme. Navratil's husband, from whom she was separated, had kidnapped her children and said he was going to take them to America. He sometimes used the name "Hoffman." Photographs of the boys were sent to Mme. Navratil in France and she identified them as her children. She took the first liner for New York to claim her little ones.

### TITANIC SURVIVORS TELL STORY HERE

The first, and probably the only chance for La Crosse people to hear the story of the Titanic wreck from the mouths of eye witnesses who were passengers on the giant liner, is at the Majestic the last half of this week. Mr. and Mrs. Anton Klink and daughter, survivors of the greatest disaster in marine annals, are telling their story as part of the regular bill at the Majestic. A more dramatic and thrilling tale than that of the White Star liner's wreck cannot be imagined.

### WALK-OUT BECOMES GENUINE STRIKE

MILWAUKEE, May 16.—Promised support of the Chicago freight handlers and clerks by Vice President Gorman of the International Freight Handlers' union, the employees of local railroad freight offices who yesterday walked out in sympathy with the Chicago strikers, today prepared to inject the wage and working condition demands into the situation. A vote on the proposition will be taken at a meeting tomorrow night. In addition the local strikers were promised by Gorman that there will be no arbitration of the Chicago difficulties unless strikers here and in other cities are included.

### WOMEN TO FIGHT FOR REFERENDUM

CHICAGO, May 16.—Suffragists of Illinois today began plans for a state-wide campaign ending in having a referendum vote on the question of women voting cast next November. To get this referendum will require signatures of 100,000 voters. The women are certain they can get that number, in spite of the fact that a poll of Chicago a month ago showed a majority of the cities opposed to woman suffrage. On next Tuesday a conference of suffragists of the middle west will open in this city. Large numbers of the women who will attend the conference have planned to go to Milwaukee on May 22 to a big suffrage meeting.

### TO BUST ALUMINUM TRUST

PITTSBURG, May 15.—The government today began suit to dissolve the Aluminum Company of America, known as the aluminum trust. The bill of equity was filed in the federal court for western Pennsylvania by Special Assistant Attorney Chantland of the department of justice, and Federal District Attorney John H. Jordan.

PICTURE WAS OF BENTLEY'S PLANS

In its issue last evening The Tribune inadvertently published a picture purporting to represent the new Elks' club, which was in fact not a cut of that building. The half-tone was taken from a wash drawing of the tentative plans submitted by Mr. Percy Bentley, the well-known architect. These plans were approved by the board of trustees and adopted by the lodge, and upon that occasion The Tribune had the cut made upon the supposition that Mr. Bentley's conception of the club rooms would be effectuated in the new building. As a matter of history other plans were adopted through the influence of the contractor, the club eventually acquiescing in the substitution which he proposed, and as completed the building bears little resemblance to Mr. Bentley's drawings.

### FOUR TEAMS ARE IN SCHOOL MEET

Annual Grades Field Meet to Be Hot Affair When Athletes Meet Next Saturday

The annual grade school track and field meet given by the Boys' Athletic association of the high school will be held at the fair grounds next Saturday morning. The Hamilton, Lincoln, Washburn and Franklin schools have entered full teams a fact which promises to make this meet a hotly contested one. The Washington and Jefferson schools have not entered teams. The purpose of this meet is to develop material for the track and field teams for the high school when the men in these meets are going to high school. There is a large banner up for the winner of the meet which has been won by the Hamilton school twice, by the Franklin school twice and by the Washburn school once. If either of the former schools wins this year's meet the banner will become the permanent property of that school. In case one of the other schools wins the meet the banner will go to that school for the following year. The following is the list of entries in the different events:

100-yard dash—Hamilton school; Wild, Schoenfelt; Lincoln school: R. Weeks, Larson; Washburn school: Ryan, Raatz; Franklin school: A. Kofka, F. Bice.  
High jump—Hamilton school; Hickish, Muth; Lincoln school: Belter, Bartz; Washburn school: Haefner, Collins; Franklin school: G. Grover, C. Berzowsky.

### WATCHING THE SCOREBOARD

Perry, who took Ty Cobb's place after the brilliant center-fielder retired, following a scrap with a spectator, struck out with the bases filled in the fourth frame.  
After winning nine straight the White Sox were tripped by the world's champion Athletics.  
Big Chief Meyers is batting .423 and the season is five weeks old. He got a homer yesterday which was just enough to beat the Pirates.  
Two more games were called off on account of rain. This makes one million and 'steen (more or less) double-headers to come.

The Dodgers have no death grip on the cellar championship, with the Phillies and the Braves bearing down.  
Mike Donlin fumbled Snodgrass' drive in the sixth and thereby contributed to the victory of his former comrades, much to his own chagrin.  
Philadelphia fans witnessed a pitching bee yesterday indulged in by Lange, Peters, Mogridge, Houck, Krause and Plank. As the result of Plank's superiority, the champions won from the Sox, 8 to 6.  
It took eleven innings to do it, but the Reds clung to their luck and won the first of the series with the Braves.

### RAIN STOPS GAMES IN MINNY LEAGUE

The weather man again interfered with the schedule of the Minny league yesterday and as a result neither of the games could be played. La Crosse and Rochester were unable to play for the second time, and as today is the last day of the Outcasts' stay in Rochester, it is hoped that the teams can get together in order to get a line on their strength. Eau Claire and Winona were also forced to remain idle yesterday afternoon as the rain of the day before continued.

After today's game the Outcasts go to Winona to meet Fred Curtis' Pirate crew, while Bailey will lead his men to Rochester for a three game series with the Surgeons.

### CUE EXPERTS IN FORM FOR MATCH

CHICAGO, May 16.—Ora Morningstar of Pittsburgh, who next Saturday night, will meet George Sutton for the 18.1 billiard title, today had a lead of 147 over Calvin Demarest, against whom he is playing 2500 points this week. Morningstar's first 500 was made with an average of 11.38-42, and his high run was 48. Demarest made one run of 52. Sutton is playing 500 points each night against Clarence Jackson and he has credit for the first night's play 500 to 341. Sutton scored 102 unfinished, as his high run.

### ANDREW SOCKALEXIS IN THE MARATHON

Andrew Sockalexis.

Andrew Sockalexis, the Old Town Indian, who ran second in the Boston A. A. Marathon this year, will in all likelihood go to Sweden with the American team. He stands about as good a chance as anyone to win the Marathon event in the Olympic games. He has grit, endurance and plugging ability, and is being favored on the theory that a runner can make good only a definite number of times in Marathons; that every 25-mile grind takes just so much out of him and lessons his chance of winning in some future occasion. Sockalexis, as a fairly good runner two years ago, and has competed in but three Marathons.

### MAY SUSPEND COBB FOR FIGHTING

NEW YORK, May 16.—The impression prevailed in local baseball circles today that Ty Cobb would draw a suspension and maybe a fine for his attack on a spectator in yesterday's game. President Ban Johnson of the American league witnessed the work from a distance. He declined to say what action he would take, but intimated he did not know what provocation could justify a ball player in going into the stands to thrash a spectator. Cobb says the man used vile epithets. A majority of the fans applauded Cobb's action. Tyrus was winner of the bout by a large margin.

#### DENVER BUYS PITCHER

DENVER, Colo., May 16.—It is announced that Denver has purchased Pitcher Leonard from the Boston Red Sox, and he will report to the Grizzlies in Omaha.

### FAN-ATICAL FANCIES

Now the Milwaukee team wants Bugs Weidell returned to them after they released him to the Wausau club under a contract in which all the advantage was with the Brewers. It seems that Weidell was sold to Wausau for \$400 but that Milwaukee had a string on him. Further than that, the contract stated that if he were drafted by a major league team that Milwaukee was to receive the purchase money and that all Wausau would get out of the deal would be the \$400 they paid for him. As if that was not enough, the Brewers said that they would have nothing more to do with him if he should hurt his arm or should be injured. Rather one-sided, eh? Malloy doesn't want to return him and he won't unless he has to. Mike wrote President Elliott asking him if La Crosse had any claim to Weidell and it seems that Milwaukee has never paid for his release. They bought him from the local club last winter.

When Manager Frank Chance of the Cubs changed his lineup Monday, Ward Miller, former Wausau outfielder, won a regular berth in the outer garden. In his first game he smashed out a three bagger.

Watson hasn't lost a single game in which he has pitched for Oshkosh this year and he has been twirling grand ball for the Indians, having won six straight games. Racine could find him for but six hits and one run in the last game he pitched.

Harry Tracey, former Outcast, had a perfect batting average Tuesday when he knocked out four safe swats in four trips to the plate.  
Bruce Noel is proving a consistent pitcher for the Milwaukee Brewers since he joined that team. Some of the hardest hitters in the American association have battled against him and all have experienced difficulty in hitting him. He was on the slab for the Brewers against St. Paul yesterday and he beat them handily. Up to date he has not met with a single defeat and he has worked against the best teams in the league.

Billy Wais appeared behind the bat for Wausau in the game against Aurora Tuesday, catching Weidell and Delave. Billy caught a good game and handled his pitchers well.
